TRAK Microwave Appoints New Business Development Staff

TRAK Microwave Corporation, a Smiths Interconnect business, today announced that it has completed the appointment of several Business Development staff resulting from a restructuring of its business processes.

Mr. Jerry Moore (formerly Strategic Accounts Manager for TRAK) has been appointed Director, Business Development; Southeast Region. Mr. Moore has been with TRAK Microwave for over ten years and has contributed greatly to the development of integrated microwave assembly (IMA) business. His new position will focus efforts on key customer relationships in the Southeast region, and he will operate from the TRAK corporate offices in Tampa, FL. Mr. Moore started his career as an RF Design Engineer with MaCom, and worked in executive sales positions at Amplica, MaCom and Sage Laboratories prior to joining TRAK. He received his BSEE from Johns Hopkins University and his MSEE from Duke University.

Mr. Mitch Haft has been appointed Director, Business Development; Northeast Region. Mr. Haft has worked in the microwave components and subsystems business for over 20 years, having started his career as an RF Design Engineer at Raytheon-ESD and then ITT Avionics. He then worked in increasing levels of responsibility in both technical and business development roles at Microwave Power Devices and Miteq. Mr. Haft completed his BSEE at the University of Massachusetts and his MBA at Fairleigh Dickinson University. He will support all TRAK business development in the Northeast Region from his office located in East Islip, NY.

Mr. Keith McElroy has been appointed Director, Business Development; West Region. Mr. McElroy brings to TRAK a successful career in technical and business development, having served with the US Air Force as a Test Engineer and Instructor with the USAF Electronic Warfare Center (Texas) and then Chief, Engineering Service with the USAF Office of Special Investigations (Washington, DC). Mr. McElroy's civilian career includes positions at Watkins Johnson and Sypris Data Systems, where he served as Vice President; Business Development. Mr. McElroy earned his BS in Systems Engineering from Wright State University (Ohio). He will support all TRAK business development in the West Region from his office in Fontana, CA.

Commenting on the appointments, Mr. Michael Kujawa, VP of Sales and Marketing for TRAK Microwave stated, "As our business continues to evolve towards stronger "partner-supplier" relationships with our customers, and our product offerings migrate towards higher levels of integration, it is important that our critical business development functions are located in closer proximity to our customer base. The reassignment of Mr. Moore, and the appointments of Mr. Haft and Mr. McElroy have significantly strengthened our business development team, and will enable us to better implement our strategic plans for growth in the area of RF subsystems and Precision Time and Frequency equipment."
